• Total depth of well: _____

• Producing Interval: _____

• Formation: _____

• Maximum Annual Pumping _____ (acre/foot)

7. Is the water to be sold to others? Yes: _____ No: _____

***Application for Water Well Permit
for wells producing less than 72,000 gal/day(50GPM)
Required permit documentation:***

- 1) If the water is to be sold to others, if the Well is a Community Public Water Supply Well, or if the Well is a Retail Public Utility Well, the Applicant must also provide:
 - (a) A description or map of the Permittee’s service area in sufficient detail to allow the District to locate the area.
 - (b) A description of the Permittee’s metering and leak detection repair program for its water storage, delivery and distribution system.
 - (c) A drought management plan.
 - (d) Information on each customer’s water demands, including population and customer data, water use data, water supply system data, wastewater data, and Conservation measures and goals, and the means for implementation and enforcement.
- 2) Attach a topo map or plat that includes the GPS location of the well site, the location of the meter or monitoring device required by Rule 3.8, and shows the acreage upon which the Applicant relies for the requested Production Limit.
- 3) Attach information showing what water conservation measures the Permittee has adopted, what water conservation goal the Permittee has established, and what measures and time frames are necessary to achieve the Permittee’s established water conservation goals.
- 4) Attach a copy of the approved Bandera County Water Availability Study and Report, if one is required by Bandera County.
- 5) Copy of Deed.

1) I declare and affirm under penalty of perjury that the statements made herein are true and correct to the best of my knowledge, information and belief.

2) I hereby authorize the BCragd Inspector to enter the above-described private property to evaluate and inspect the well at all stages of construction for compliance to BCragd and TDL&R rules and construction standards, and to insure a brass well marker with the permit number assigned has been affixed at the well head as required.

3) I understand that upon acceptance of this application, the well permit will be included in the public records kept and maintained by the District.
