

Bandera Co. River Authority & Groundwater District
Application for Water Well Permit
for wells producing greater than 72,000 gal/day(50GPM)

1. Name of Applicant: _____
Business Name: _____
Mailing Address: _____
Phone No.: _____
Physical Address: _____
Bandera Co. Appraisal District Parcel Number(s) for the well site and property: _____
Annual Acre-feet of water requested: _____

2. Proposed:

Latitude:		Longitude:	
Pump Type		Casing size (in)	
Pump size (hp)		Cementing data	
Pump setting depth (ft)		Maximum capacity (gpm)	

3. Attach a statement of the nature and purpose of the proposed use, including if groundwater will be pumped into a pond, lake, tank, reservoir, or other surface impoundment, and the anticipated amount of water to be used.
4. Anticipated time period within which the proposed construction or alteration is to begin:

5. Statement of the anticipated duration of time required for the proposed use of the water:

6. Proposed:
- Total depth of well: _____
 - Producing Interval: _____
 - Formation: _____
7. Is the water to be sold to others? Yes: _____ No: _____

***Application for Water Well Permit
for wells producing greater than 72,000 gal/day(50GPM)***

Attachments:

- 1) If the water is to be sold to others, if the Well is a Community Public Water Supply Well, or if the Well is a Retail Public Utility Well, the Applicant must also provide:
 - (a) A description or map of the Permittee's service area in sufficient detail to allow the District to locate the area.
 - (b) A description of the Permittee's metering and leak detection repair program for its water storage, delivery and distribution system.
 - (c) A drought management plan.
 - (d) Information on each customer's water demands, including population and customer data, water use data, water supply system data, wastewater data, and Conservation measures and goals, and the means for implementation and enforcement.

- 2) Attach a topo map or plat that includes the location of the well site, the location of the meter or monitoring device required by Rule 3.8, and shows the acreage upon which the Applicant relies for the requested Production Limit

- 3) Attach information showing what water conservation measures the Permittee has adopted, what water conservation goal the Permittee has established, and what measures and time frames are necessary to achieve the Permittee's established water conservation goals.

- 4) Attach a copy of the approved Bandera County Water Availability Study and Report, if one is required by Bandera County.

- 5) For Permit applications requesting more than 72,000 gallons per day (50 GPM), the Applicant must also provide the following:
 - (a) Identify all Registered and Permitted Wells within 1/4 mile of the proposed Well that are producing from the same formation, and the name and mailing address of the Owners of those Wells.
 - (b) Information, including a hydro-geological study with Test Wells, showing water availability and the projected effect of the proposed pumping on Aquifer conditions or depletion, and on Permit Holders or other Groundwater users in the District;

***Application for Water Well Permit
for wells producing greater than 72,000 gal/day(50GPM)***

- (c) Information showing the availability of water in the District during the period for which the water supply is requested; and
 - (d) Information showing that the project is consistent with the approved Regional Water Plan and approved District Management Plan.
- 6) The application must be accompanied by a map or plat drawn on a scale that adequately details the proposed project, showing:
- a) The GPS location of the Well, using the WGS-84 co-ordinate system.
 - b) For Permit applications requesting more than 72,000 gallons per day (50 GPM), the location of all Registered and Permitted Wells within 1/4 mile of the proposed Well.

I hereby certify that I have read the foregoing statements and attest that all information supplied is true and correct and complies with all District Rules.
