## NOTICE TO ALL RESIDENTS OF BANDERA COUNTY EXCEPTIONAL DROUGHT RESTRICTIONS IN EFFECT

---

The Bandera County River Authority And Groundwater District have moved to Exceptional Drought Restrictions. The move was based on the current groundwater levels and the rainfall deficit.

Below is a comprehensive breakdown of the current drought restrictions for **permitted well owners** in effect as of August 11, 2022 :

**The following drought restrictions and any subsequent enforcement actions not only apply to all permit holders and public water suppliers but to anyone who utilizes water from a public water supply system or any District permit holder in the County.**

- A. All requirements of Stage 4 remain in effect in Stage 5.**
- B. Irrigation of all landscape areas and turf is prohibited at all times.**
- C. All Permittees with wells permitted to pump into surface impoundments shall discontinue pumping.**
- D. The issuance of new water well permits and amendments may be suspended except to replace an existing well.**
- E. All existing permits may have their authorized pumping amounts reduced by the District for the duration of Stage 5 and possibly even if the County falls back into Stage 4.**
- F. Any other measures deemed necessary by the Board to protect public health and safety.**

**Most residential and domestic water wells are registered rather than permitted by the BCragd; therefore, they are not subject to drought restrictions.**
